To Our Valued Customers:

We're proud to have continued serving your needs for safe drinking water, fire protection and effective management of wastewater and stormwater during this challenging year.

We made great progress updating aging infrastructure, received a positive water quality report, and participated in an innovative program to track COVID-19 via wastewater.

We thank all our staff and partners for making this possible, and wish you all a very happy new year!

—Ken Knight, Chair, Board of Trustees
