

E-Chamber Bucks Program Participation Agreement

Goals of the program: We at the Chamber enlist creative approaches to encourage people to shop with our local merchants, and keep their support in the communities. The e-Chamber Bucks program makes shopping and gift-giving easier for our customers from near and afar by allowing them to give and receive the gift of options! e-Chamber Bucks are essentially electronic gift cards that are redeemable at our participating member businesses that are appropriate for all occasions. The more participation we have from our membership, the better! The program increases the visibility and effectiveness of the Chamber for our membership by promoting our local economy, and raises awareness of the fact that together, our support of local commerce makes the difference.

How it works: E-Chamber Bucks is a community gift card program that allows customers to buy one e-card that can be redeemable at local Chamber member businesses. It is all digital, there is no physical gift card. Customers can show the e-card on their phone or print out the card. The card is powered by Mastercard and you would run the credit card transaction manually on your credit card POS system. Your business will be listed on the participating locations map on the Chamber website. It may take up to 24 hours before your listing is activated and you can start accepting cards. Add the e-Chamber Bucks link to your website, social media, and let your customers know you are part of the program!

Business Name: _____

E-mail Address: _____

Phone: _____

Contact Person: _____

Our business has read and agrees to the terms outlined above, and agrees to participate with the Franklin County Chamber of Commerce in the e-Chamber Bucks Program.
